Quality

Quality Management Plan

Certified by TUV Rheinland in November 2020

The benefits of using an ISO 9001 Quality Management System includes:
Meet customer satisfaction needs
Less wastage
Improved performances and reduction on errors and deficiency.

The benefits of using an ISO 14001 Management System includes:
Reduce waste
Provide assurance that environmental impact is being measured
Meet legal obligations
Increase stakeholder and customer trust
Manage environmental obligations with consistency

The benefits of using an ISO 45001 Management System includes:
Improves hazard identification and risk assessment. Reduces downtime, overall costs of incidents at the workplace and the number of insurance premiums claimed. Minimizes injuries to the employees, visitors and anyone who can be.
